

Clean and maintain oiled, waxed and soaped wood surfaces with Natural Soap. This mild, penetrating soap removes dirt and helps prevent the wood from drying out and cracking. It leaves behind a microscopic, breathable soap layer on the surface that maximizes resistance and makes the surface easier to keep clean. Natural Soap is indoor climate labelled and free of perfume and additives.

- **Nourishing effect**
- **For the basic treatment of softwood**
- **Ideal for floors, furniture, table tops and panels**
- **For regularly cleaning**

## Application area

WOCA Natural Soap is suitable for regular cleaning and maintenance of oiled, waxed and soaped wood surfaces. The soap is especially ideal for floors, furniture, table tops and panels.

## Work description

Preparation	<p>Daily cleaning is made with vacuum cleaner or broom. The frequency of floor cleaning depends on the wear on the floor. Very dirty floors may be cleaned with WOCA Intensive Wood Cleaner before using Natural Soap.</p> <p>Always remember to test on a less visible spot to check the compatibility of the surface with the product.</p>
Treatment	<p>Natural Soap is shaken carefully before use. Make sure the pigments are mixed well. 125 ml Natural Soap is mixed into 5 L of cold water. Wipe down the surface with a well-wrung mop. For best results, use two buckets: one with soap water and the second with clean water to rinse the dirty mop. Clean the floor with minimum quantity of water – leave soap water on floor briefly in order to dissolve dirt. Remove dirty soap water with hard-wrung mop or cloth and rinse out in bucket with clean water. Always wipe down the surface with soap water and a hard-wrung mop or cloth in order to re-establish the protective soap film.</p>
Please note	<p>Don't use 100% microfiber. For best results, use two buckets: one with soap water and the second with clean water to rinse the dirty mop. See technical data sheet for further information.</p>

## Drying time

Natural Soap

**Cleaning and protection of oiled wood**

Technical Data Sheet

11.08.2021 - p. 2/2

## Technical data

Declaration	15% or over but less than 30% Soap. The following applies only for colours, less than 5%: colouring agents.
pH-value	10
Shelf life	36M
Application Temperature	+10-25°C
Coverage	320-400 m <sup>2</sup> /L, depending on wood type and surface
Colours	Natural, white and grey.
Mixing ratio	125 ml to 5 L water
Cleaning of tools	Use soap and water
Storage	+10-25°C. Keep out of reach of children. Do not expose to heat (e.g. sunlight). Store frost-free during winter and cool during summer.
Packaging	1 L - 2.5 L - 5 L
